For: APPARATUS AND METHODS
FOR FORMING TOROIDAL
WINDINGS FOR CURRENT
SENSORS

Provisional Election of Species with Traverse

Assistant Commissioner for Patents
Alexandria, VA 22313-1450

S I R:

The Office has issued a second Restriction Requirement dated August 19, 2005. In that Restriction Requirement, the Examiner requires an election between embodiment 1 (Figs. 1-3), embodiment 2 (Fig. 4), embodiment 3 (Figs. 5-7), embodiment 4 (Fig. 8) and embodiment 5 (Fig. 9).

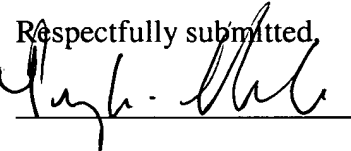

Claims 30-46 are pending in the present application. Applicants respectfully submit that Claim 30 is generic to FIGS 1-8. Below please find the requested identification of species.

Embodiment 1	FIGS 1-3	Claims 30-33
Embodiment 2	FIG. 4	Claim 30
Embodiment 3	FIGS. 5-7	Claims 30 & 34-39
Embodiment 4	FIG. 8	Claims 30 & 40-44
Embodiment 5	FIG. 9	Claims 45-46

Applicants hereby provisionally elect Embodiment 3 (Claims 30 and 34-39) with traverse. Applicants respectfully submit that, despite the Examiner's contention that the inventions claimed are distinct, the search and examination of Claims 30-44 can be made without serious burden because of the closely related nature of Embodiments 1-4. Accordingly, Applicants respectfully request that the Examiner reconsider the necessity for a restriction requirement between Embodiments 1 (Claims 30-33), 2 (Claim 30), 3 (Claims 30 and 34-39) and 4 (Claims 30 and 40-44) in this case.

Please charge all applicable fees associated with the submittal of this response and any other fees applicable to this application to the Assignee's Deposit Account No. 07-0868.

If any issues remain unresolved, the Examiner is kindly requested to contact Applicants' undersigned representative at the telephone number below.

Respectfully submitted,

Penny A. Clarke
